Today is the last day of our 4 month internship period. These days were filled with new experiences and lessons in life. These days taught me to learn from mistakes and improve with hardwork. As a teacher trainee, these 4 months of teaching experience helped me to understand my limitations and how to improve it. The experience

collected from here helped me in developing my personality and increasing my confidence in life.

Today the 2nd period I went to class-VII-B. and completed the 5th chapter of their social science textbook. After that- I had a friendly chat with my students, wished them good luck for their future life and then, I thanked all the students for the love they showed on us in these days. In the afternoon session we met all the teachers and non-teaching staffs and thanked them all for their kind co-operation with us. At last we met our Headmistress, Mrs. Anjali Boreah, we all are very thankful to ma'am for the love, care and co-operation that she offered to us. Headmistress wished us a good teaching profession and advised us to uphold good values in life.
